Now use the following space to record other aspects of your funeral you would like some say over.

For instance; you may wish to be buried in a natural burial ground (not available everywhere) or cremated. You can choose no embalming or eco embalming (if circumstances allow). Consider catering, flowers, memorials, music, transportation even a preferred funeral director - this is your opportunity to ensure your wishes are met. If you want to take this a step further talk to your funeral director about pre-arranging your funeral.
